

CORPORATION SERVICE COMPANY®

Community Bankers of Washington (CBW) is pleased to announce an exciting partnership with our newest Preferred Provider, Corporation Service Company (CSC). CSC is the world's leading provider of Uniform Commercial Code (UCC) lien searching, filing, tracking, and online portfolio management services.

As a member of the CBW, your organization is eligible for exclusive discounts and complimentary services from CSC:

- A **complimentary import** of your existing UCC portfolio into CSC's Web-based application so that you can immediately start tracking your expirations
- **No upfront enrollment costs**, annual fees, software downloads, or system set-up procedures
- A **14% discount** on lien searching and filing service fees and training for your team at no cost to you
- A **complete digital** archive of all of your scanned images of search results
- **Article 9-compliant** filing services, plus electronic filing in nearly 40 jurisdictions

If you currently rely on state systems to search and file UCC records, CSC can help you uncover search records that state systems may miss and identify potential debtor name errors before you file. Since everything is stored in one secure location, you'll have a ready-made disaster recovery plan and a partner to lean on if your current staff or procedures change. Plus, CSC can monitor corporate debtor names, structures, status, and bankruptcies to reduce risk in your lending portfolio.

[Register for CSC's Web seminar today](#), and learn more about how to take advantage of this opportunity for CBW member banks. Or, contact Ciela Corradin at 800.927.9801 ext. 3439 or ccorradi@cscinfo.com for more information.
